🚐 RV Dump Point: The Dump Point located with the RV Hardstand Overnight Area is now operational.

❤️ AED (automated external defibrillator) - we recently installed an AED to the Park precinct. An AED, or automated external defibrillator, is used to help those experiencing sudden cardiac arrest. It's a sophisticated, yet easy-to-use, medical device that can analyze the heart's rhythm and, if necessary, deliver an electrical shock, or defibrillation, to help the heart re-establish an effective rhythm (www.redcross.org)

We are dedicated to providing an exceptional living experience for our Home Owners, and these updates mark important milestones in achieving that goal.

Stay tuned for more construction updates as we continue to further enhance our community.
